

iMOtion- Informal Moments (IM) in Adult Education

INVITATION

13 – 15 OF SEPTEMBER 2022 IN WIENER NEUSTADT, AUSTRIA

The Project

Covid-19 put the world up-side-down für the whole training market. We all – as trainers and educators – had a big learning curve in creating online trainings, as many of our courses and seminars were transferred to online.

Through the discussions about our experiences in these online trainings, we realized that we all were missing “**informal moments**”, where we had a **chat about the training**, but also about many other topics. We missed these **breaks in between**, where we could – as learners – **digest the learnings, relax among friends and colleagues and maybe have the most phantastic ideas about a future projects.**

We decided to take up this topic and created and **Erasmus+ project** with the following goals:

- discuss with other adult educators **what “informal moments”** are
- look into **research** about “informal moments”
- **test methods** for online and off-line “informal moments”
- write a **publication with a framework on how we as trainers and educators can create “informal moments”** online and offline

We are looking for **adult educators**, who want to explore and reflect with us the topics of “**informal moments**” and have experience as a trainer with one of the following **target groups**:

- **LGBTQI+**
- **Migration**
- **Unemployed people**
